Best skills story wins £50,000

A NATIONWIDE search is on to find the UK's most deserving individual who can show how studying new skills could change their life.

A Buddie might have overcome challenges to advance their career, or they might well be out to gain new career prospects and self-enlightenment.

Or alternatively they could simply have always dreamed of studying a particular course and for some reason were never able to do so.

The Remote Worker Awards and The Open University are inviting the British workforce to enter The Open University Skills Award to win a brand new career.

The Open University Skills Award is

one of the many highlights of The Remote Worker Awards which takes place in association with BT Business.

This initiative aims to raise awareness for remote and home working.

Award Winners will walk away with a prestigious trophy and will enjoy up to £50k in prizes.

These include a Penthouse Garden Office worth £10k, a Home Based Franchise worth £15k, interior design, business starter kits, a mobile laptop and a fabulous luxury weekend at a von Essen Hotel.

And, of course, a brand new career.

For more information about The Open University Skills Award, call 0844 800 8355 or log on to www.remoteworkerawards.com
